General Summary of Machine Readable Passport Requirements & Processing Time

For the information of the public, the Philippine Embassy and Consulates General in the U.S. started to accept and to process applications for Machine Readable Passports (MRP) on **2 June 2008**. This is in compliance with the requirements of the International Civil Aviation Organization (ICAO) for its member states, including the Philippines, to issue MRPs not later than **1 April 2010**.

Since applications are sent to the Department of Foreign Affairs in Manila via diplomatic pouch, it may take **six (6) weeks** for a passport to be released to the applicants, from the time the application is accepted.

While **some countries** may still **honor** valid **green Philippine** passports beyond 1 April 2010 as *bona fide travel documents* until they expire, **most countries** will **require** travelers to be holders of either **machine readable passports** or **e-passport** for their sojourn by **2010**.

In this regard, all Philippine **passport holders** are advised **to renew** their Philippine passport **six (6) months prior** to its **expiration**, in accordance with ICAO regulations, and **to secure** their **plane tickets** only after they have **received** their **new passport**.

All Filipinos, including those with valid green passports, are therefore **encouraged to apply** for their machine readable passports **as early as possible**. ###end
